## What is this product?

**Type:** Shares of a Sub-Fund of Amundi Index Solutions, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** This Sub-Fund is passively managed.

The objective of this Sub-Fund is to track the performance of the MSCI World Index (the "**Index**"), and to minimize the tracking error between the net asset value of the sub-fund and the performance of the Index.

The anticipated level of the tracking error, under normal market conditions, is indicated in the prospectus of the Sub-Fund.

The Index is a Total Return Index : the dividends net of tax paid by the Index constituents are included in the index return.

The Index is an equity index representative of the large and mid-cap markets across 23 developed countries.

More information about the composition of the index and its operating rules are available in the prospectus and at: [msci.com](http://msci.com)

The Index value is available via Bloomberg (NDDUWI).

The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index.

The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Index Solutions prospectus.
